

Check here to find an Endorsed Antenna Installer

1 March 2013

The Antenna Installer Endorsement Scheme (the Scheme) is non-mandatory and participation is entirely at the discretion of installers. Endorsement under the Scheme and use of the Get Ready for Digital TV logo indicates only that the installer has been assessed as appropriate for endorsement under the Scheme. The Commonwealth does not warrant the quality of an installer's services or the suitability or competence of the listed businesses to provide installation services. The Commonwealth does not otherwise endorse any business listed or its work in any way. Consumers should make their own enquiries to select a business that they consider suitable and safe to conduct their installation.

The Commonwealth does not accept liability (direct or indirect) for any injury, loss, damage or cost incurred as a result of or arising from any act or omission by installers in connection with the installation of digital switchover facilities, including those arising from any use of information accessed through this website or the engagement of any particular listed business by a consumer. Endorsed Antenna Installers listed on this website do not act as employees, contractors or agents of the Commonwealth in installing any digital switchover facilities.

For more information on the criteria used to assess an installer refer to this website.
